Mobile / WhatsApp: +977-9814963098
Address: Chulachuli, Ilam

Information Technology Officer with a B.Sc. in Computer Science and Information Technology (CSIT), experienced in managing municipal IT systems, drafting internal IT policies, coordinating with third-party vendors, supporting procurement and bid processes, and preparing reports and presentations for administrative reviews. Previously I worked as a Full-Stack Developer, contributing to cross-platform application development, backend integration, and the full app lifecycle, with additional exposure to requirement gathering and stakeholder coordination. Skilled in Dart and Python, with practical experience in IT support, system documentation, and digital service delivery.

Work Experience

CHULACHULI RURAL MUNICIPALITY, ILAM

Information Technology Officer (Full-Time | On-site) **May 2024 - Continue**

Responsibilities Includes:

- Built and maintained professional working relationships with **third-party service providers, vendors, and technical partners**

Projects

Throughout my professional journey, I have undertaken development and consultancy work across a range of projects, including:

1. **Digital Nepal (School Management System):**
   Platform: Android, IOS
   Description: Digital Nepal, the pioneer of education in Nepal, leads with a transformative vision. App's core mission is to ensure transparency in academics, billings, exams, notices & many more accessible from anywhere. Students, Guardians, Teachers, Staffs and Schools can effortlessly access grades, pay fees, download notes & with a lot of features
- **Tech Stack:** Java Spring Boot, Flutter
  Link: Play Store, App Store

2. **QuestionBank.AI:**
   Platform: Android, IOS
   Description: QuestionBank.AI is an innovative Android application designed to revolutionize online

learning by providing a user-friendly platform with a vast, subject-wise interactive question bank.

- **Tech Stack:** Java Spring Boot, Flutter
  Link: Play Store, App Store

3. **Digital Profile of Municipality**
   Platform: Web
   Description: A comprehensive digital profiling and survey system built for municipalities to manage demographic and service-related data. The project includes a Flutter-based survey app, a Django Wagtail-powered admin portal, and REST APIs for seamless data synchronization across platforms.
   - **Tech Stack:** Django (Wagtail CMS), REST API and Flutter
     Link: Chulachuli Profile, Deumai Profile, Phakphokthum Profile, Sunkoshi Profile

4. **Navodaya Cooperative Website**
   Platform: Web
   Description: A corporate website built for Navodaya Cooperative to showcase services, news, and organizational information with a responsive and user-friendly interface. Developed using Django for backend management and Wagtail CMS for easy content updates.
   - **Tech Stack:** Django, Wagtail CMS, HTML, CSS, JavaScript
     Link: https://navodayacoop.com.np/en/

5. **Pardaphas News Portal**
   Platform: Web
   Description: Online news portal with responsive design, dynamic layout and page generation, robust CMS, multimedia support, ad management, role-based user access, comment moderation, SEO optimization, and analytics integration. Built using Django and Wagtail CMS
   - **Tech Stack:** Django, Wagtail CMS, HTML, CSS, JavaScript
